SUMMARY

Results-driven **Computer Science Graduate** with 1 year of experience in fintech operations at **Abacus (Sadapay)**. Currently specializing in **Full-Stack Development (MERN)**. Expert at managing high-volume targets and building responsive web applications.

EDUCATION

BSCS from **University of Sargodha**

Sept 2020 - June 2024

Relevant Courses: *Programming Fundamentals, Object-Oriented Programming, Data Structures and Algorithms, Database Systems, Web Systems and Technologies*

EXPERIENCE

MERN Stack Trainee | *Ideoversity*

Sept 2025 – Now

- **Currently pursuing** a specialized certification in **MERN Stack Development** (MongoDB, Express.js, React, Node.js).
- Developing interactive and dynamic user interfaces using **React.js**, focusing on component-based architecture and state management.
- Designing and implementing server-side logic and RESTful APIs using **Node.js** and **Express.js**.
- Managing non-relational databases with **MongoDB**, including data modeling and CRUD operations.

Abacus IT Consulting & Services

Oct 2024 – Now

Customer Relations Officer(Sadapay):

- Managed the verification process for Sadapay accounts, ensuring accuracy and compliance with guidelines.
- Verified customer identities by matching ID card details, contributing to a secure onboarding process.
- Collaborate with the operations team to resolve queries and achieve verification targets effectively.

Air Base Inter College Mushaf, Sargodha

Exam Invigilator:

- Performed invigilation at Air Base Inter College Mushaf, Sargodha.
- Efficiently managed examination sessions, collaborating with invigilators and supervisors to foster teamwork. Utilized communication skills to address queries from students and authorities.

PROJECTS

Personal Portfolio Website:

- Designed and deployed a professional portfolio on **Netlify** with a mobile-responsive layout.
- Integrated **Web3Forms SaaS** for serverless form handling and automated email notifications.
- Managed version control via **GitHub** with automated deployment workflows.
- **Link:** <https://hamzasahi.netlify.app/>

Expense Tracker With React:

- Developed with React components and useState to manage expense data dynamically.
- Integrated with a PHP API to fetch and store expense data.
- Includes adding new expenses and displaying them in a structured format using reusable components.

Drum kit website:

- Built an interactive drum kit using HTML, CSS, and JavaScript, featuring keypress and click-triggered sounds with dynamic DOM manipulation and audio integration.

Dice Game:

- Implemented logic to simulate random dice rolls and dynamically display results on the screen.
- Utilized conditional statements to determine and announce the winner based on the dice rolls.

SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks/Libraries:** Tailwind CSS, Bootstrap, React.js, Node.js, Express.js
- **Database:** MySQL, MongoDB
- **Tools:** GitHub, Netlify, Vercel, Web3Forms, VS Code
